## PREFACE

---

There is a continued demand from university and secondary school teachers, mineral operators, and others interested in the development of the natural and mineral resources of this State for an authentic and complete list of all the books, reports, papers and maps written and prepared personally by the State Geologist. Many of these reports take up the geology of coal, oil, gas, asphalt, oil shale, fluorspar, etc., the greatest mineral assets of Kentucky. A number of these reports, due to the great demand for them, are now entirely exhausted in edition, but may be consulted in any of the large public libraries of the State. The publications not now available have been so designated on the list herewith presented, which it is hoped will be of service to the interested public.

*M. R. Gilliam*

Director and State Geologist,  
Kentucky Geological Survey.

Old Capitol,  
Frankfort, Ky.

### 1917

	Pages
1. Washington.† *The Volcanic Activity of Mount St. Helens and Mount Hood in Historical Time. The Geographical Review, pp. 481-485, June, 1917 .....	15
2. Oklahoma.† *Preliminary note on the Occurrence of Vertebrate Footprints in the Pennsylvanian. The American Journal of Science, Vol. XLIV, July, 1917 .....	3
3. Washington. *New Evidence of a Recent Volcanic Eruption on Mount St. Helens. The American Journal of Science, Vol. XLIV, July, 1917 .....	4

†This bibliographic list is arranged chronologically with the name of the State to which the report refers printed separately above the title.

†Enumeration is based on the standard 6x9 inch page.

††Exact reprints under same title, and separate maps though listed are not totaled into the enumeration of pages. Revised reprints and revised new additions are totaled.

\*Starred titles indicate that the report is exhausted in edition and not any longer available for free distribution. All of the Kentucky State published reports, though starred, may be consulted in State libraries and in many public municipal libraries in adjoining states.

Total pages, 1917, 12.
